Luca Kramberger

Mobile App Developer (Flutter)

Contact
Graz, Austria
E-mail: luca.kramberger@gmail.com
Date of birth: 25.08.2003 · Nationality: Austrian

Profile

Mobile developer specialized in Flutter/Dart with strong experience in early-stage product teams. I build cross-platform apps (iOS, Android, web, desktop) end-to-end – from prototype to production – including integrations, testing and monitoring. Used to working in small teams, taking ownership and shipping reliable, high-quality apps.

Professional Experience

CU Development GmbH – Project Manager & Flutter Team Lead
Graz · 11/2021 – Present

- Lead Flutter development of a social-first event platform (mobile & web).

- Design app architecture and state management using BLoC and hydrated_bloc.

- Implement authentication with Supabase (PostgreSQL, Auth, Realtime) incl. e-mail and social logins (Google, Apple, Facebook).

- Integrate Stripe and Stripe Connect for in-app payments and secure payouts.

- Use Firebase (Push Notifications, App Check) and Sentry for security, engagement and monitoring.

- Build custom Mapbox interactive maps and deep linking/navigation with GoRouter.

VouGee GmbH – Flutter/Dart App Engineer
Graz · 04/2023 – 06/2025

- Further development of a Web3 crypto exchange built in Flutter/Dart.

- Implemented end-to-end encrypted chat using a Matrix-style architecture.

- Developed wallet and transaction flows and improved UX for complex crypto actions.

- Built reusable, responsive UI components using the internal design system.

- Integrated and maintained realtime push notifications (Firebase).

Education

HTL Leoben – Higher Technical College, Software Engineering & Planning
09/2017 – 07/2022

- Degree: Matura (Austrian A-level equivalent; Reife- und Diplomprüfung).

- Focus on software development, planning and project work.

Languages

- German: Native

- English: B2 (confident in technical communication)

Skills

Technologies & Tools

- **Mobile & Cross-Platform:** Flutter (mobile, web, desktop), Dart, basic Swift

- **Backend & Data:** Supabase (PostgreSQL, Auth, Realtime), SQL, REST APIs

- **Cloud & Integrations:** Firebase (Push Notifications, App Check), Stripe & Stripe Connect, Sentry, Mapbox

- **Other:** HTML, CSS, JavaScript/TypeScript, Java, Python, VMware, VirtualBox, MS Office

Soft Skills

- Clear communication with technical and non-technical stakeholders

- Experience coordinating a small dev team while staying hands-on

- Strong ownership mindset and structured way of working

- Curious problem-solver and fast learner, with focus on polished UX
